(20260925-BQ-06)

Standort: Hamburg | Anstellungsart(en): Vollzeit | Gehaltsspektrum: 3500 - 4000 Euro pro Monat | Beschäftigungsbeginn: ab sofort

We Are Looking for You

Start your career with BQengineering – Job searching can be this easy!

We are looking, on behalf of our client, for a **Structural Mechanic (m/f/d)** within the framework of temporary employment (employee leasing) with the option of permanent hire.

Future Potential

If suitable, you have the opportunity to be taken over by the customer company.

What Awaits You

- Perform mechanical and electrical assembly, maintenance and disassembly work on aircraft
- Work according to technical drawings, work orders and aviation documentation
- Install and maintain aircraft systems, including hydraulics, fuel, air conditioning, engines and electrical systems
- Carry out inspections and report defects or non-conformities
- Use mechanical and electrical tools and testing equipment
- Follow FOD, safety and quality requirements
- Support aircraft storage/de-storage activities
- Work in a team and be flexible for shift work

What You Bring

- Completed training as an aircraft mechanic, aircraft electrician or comparable qualification
- At least 2 years of aviation experience
- Experience with mechanical and electrical aircraft systems
- Ability to read technical drawings and documentation
- Airbus experience is an advantage
- Knowledge of aviation safety and FOD regulations
- Good English skills (B1 or higher)
- Reliable, independent and team-oriented working style

What We Offer

- A quick and uncomplicated start
- An attractive compensation model comparable to collectively agreed industry bonuses
- Job-related training and development opportunities
- Collective agreement bonuses, working time account, and social benefits
- Christmas and holiday bonus pay
- Work clothing provided
- Occupational health and safety support
- Long-term assignments with the option of permanent employment by our client companies
- Personal support and consultation
